

# FRONUS PV-5200 Hybrid Inverter

## DATASHEET / SPECIFICATIONS

NAME	DETAIL	NAME	DETAIL
Brand	Fronus	Max. Efficiency	98%
Model	Hybrid PV-5200	Max. Solar Panel Array Power	6200 watt
MPPT	1	MPPT Range	90-450 volt DC
Max. PV Charging	120 Amp	Max. Charging Current	120 Amp
Nominal PV Voltage	240 volt DC	Auto Charge	Yes
Wi-Fi, LCD	Yes	Auto Restart	Yes
Net Metering	Yes	Operating Temperature	-10°C to 50°C
Rated Output Power	3600 watt	Installation	Wall-mounded
DC Voltage Range	90 volt ~ 450 Volt DC	Weight	9kg
Battery Voltage	24-volt system	Dimensions	13.8x16.5x4.5 inches (W x H x D)
Maximum Charging Current	120 Ampere (Solar to AC)	Efficiency (DC to AC)	94%
Output Wave Form	Pure sine wave	Warranty	2-Years Product, 5 Years Service

# FRONUS PV-5200 Inverter

## FEATURES

- Cost-effective
- Efficiency up to 98%
- Self-consumption and feed-in to the grid
- 220-volt Single-phase inverter
- Rated Power 3600 watt
- Compact Design
- Can be monitored via Mobile Application
- Pure sine wave inverter
- Charging current up to 120 ampere
- Surge Protector
- Compatible with mains voltage or generator power
- Auto restart while AC is recovering.
- Short Circuit/Overload/Over temperature protection
- Wi-Fi monitoring. Mobile application is available
- Compatible with lithium ion battery
- Can work and without battery
